Selection/inclusion criteria

Criteria for screening on title and abstract		EX0: Non-human studies	Exclude studies that are not about human beings (i.e., studies about animals, plants, etc.)
	Criteria for screening on full text	EX1: Language	Exclude studies that are not published or written in English
		EX2: Context	Exclude studies that are not based in the United Kingdom (i.e., England, Wales, Scotland, Northern Ireland). Exclude studies that are conducted in multiple countries if one or more country is outside of the UK.
		EX3: Concept 1 (Linked data)	Exclude studies that are not about the linkage of datasets pertaining to the same population.
		EX4: Concept 2 (Reproductive health)	Exclude studies that are not about reproductive health as defined by the following domains: - Menstrual health, urogenital, and urogynecological conditions - Gender-based violence - HIV/AIDs and other sexually transmitted infections - Preconception - Contraception - Maternal and child health - Safe abortion - Fertility and infertility - Menopause and menopausal symptoms - Reproductive cancers - Pregnancy health and future illness
		EX5: Population	Exclude studies that do not report reproductive health outcomes for people of reproductive age defined as 12 years and up.
		EX6: Study type	Exclude studies that do not contain empirical data. Examples include opinion or commentary papers that contain no analysis of empirical data.

Data extraction/ Coding tool

Question	Codes
Year of Publication	• 2000 • 2001 • 2002 • 2003 • 2004 • 2005 • 2006 • 2007 • 2008 • 2009 • 2010 • 2011 • 2012 • 2013 • 2014 • 2015 • 2016 • 2017 • 2018 • 2019 • 2020 • 2021 • 2022 • 2023 • 2024
Geographical location (tick all that apply)	• UK/Not specified • England • Scotland • Wales • Northern Ireland
Level of Data	• National • Local • National and Local
Study Aims (tick all that apply)	• To analyse linked dataset(s) • To explore or understand the process of data linkage • To assess the feasibility of using data linkage in measuring outcomes • To assess public acceptability of the linked dataset(s) • To explore the level of agreement of data in different datasets
Date of Data Set (tick all that have been explicitly reported)	• Not applicable • Not reported/Unclear • 1950-1954 • 1955-1959 • 1960-1964 • 1965-1969 • 1970-1974 • 1975-1979 • 1980-1984 • 1985-1989 • 1990-1994 • 1995-1999 • 2000-2004

	• 2005-2009 • 2010-2014 • 2015-2019 • 2020-current
Sample Size	• Not applicable • Less than 10,000 • 10,000-100,000 • 100,001-1 million • 1 million and 1-10 million • More than 10 million
Overall Mean/Median Age (explicitly reported)	• Not applicable • Not reported • Under 1 • 12-19.99 • 20-29.99 • 30-39.99 • 40-49.99 • 50-59.99 • 60-69.99 • 70 and above
Sex	• Male and Female • Female only • Male only
Sample: RPH	• Individuals who have had a miscarriage or abortion • Individuals who use/have used contraceptives • Individuals who have had undergone female genital mutilation • Individuals with testicular hypofunction • Individuals with reproductive cancer(s) and/or reproductive cancer risk • Individuals using/who have used Assistive Reproductive Technology • Individuals with Polycystic ovary syndrome (PCOS) • Individuals with sexually transmitted diseases (STDs) and infections (STIs) • Individuals with a sexual dysfunction disorder • Individuals with fertility issues and/or a reproductive endocrine disorder • Individuals with Gender Identity Disorders • Individuals with heavy menstrual bleeding • Individuals with endometriosis • Individuals who have had a hysterectomy • Individuals who have experienced pelvic organ prolapse and/or had pelvic floor surgery • Individuals who use/have used hormones (OCs or HRT/hormonal therapy) • Post-Menopausal Women • Pregnant women • Mothers • Neonates • General reproductive age population (e.g. at risk / screening, vaccine uptake) • LGBTQIA+ • Victims of domestic or sexual abuse
Reproductive Health Domain(s)	• None • Menstrual health, urogenital, and urogynecological conditions • HIV/AIDs or other sexually transmitted infections

(tick all that apply)	• Maternal and child health • Pregnancy health and future illness (additional domain) • Gender-based violence • Preconception • Contraception • Safe abortion • Fertility and Infertility • Menopause and menopausal symptoms • Reproductive Cancers
Sample: Other (Non-reproductive health) Characteristics	• None reported • Benefit status • Birth date/month/year • BMI • Car ownership • Criminal record • Deprivation data • Ethnicity / Race • Family Adversity Index • Food habits • Frailty • Employment status • Geographical Region (e.g. Rural/Urban, inner/outer London) • Health board/district council/ward of residence • Health Status • Height • Hormone status • History of child abuse • History of domestic abuse • History of self-harm • Income • Housing area/status • Household Income • Learning disability • LGBTQIA+ • Level of education/educational history • Level of exercise/physical activity • Level of sun exposure • Marital status/ Presence of partner, etc. • Mental health status/problems • Medical/treatment history • Mortality/death • Obstetric history • Occupation • Parity • Place (e.g., country, city, etc.) of birth • Place (e.g., country, city, etc.) of death • Pregnancy History • Primary language/language(s) spoken, etc. • Refugee status • Religious background • Sexual orientation

	• Socio-economic Status (SES) or Social Class • Smoking Status • Substance (including alcohol) use and/or abuse • Vaccination status • Venous thromboembolism status (VTE) • Weight
Datasets Linked	• Unspecified • Aberdeen Fertility Centre Database (AFCD) • Aberdeen Maternity and Neonatal Databank (AMND) • Abortion Records - Department of Health • Acute Inpatient Dataset (National Commissioning Data Repository) • Adjuvant Ovarian Ablation versus CMF Chemotherapy in Premenopausal Breast Cancer- Trial A • Antenatal screening database in the Institute of Medical Genetics • Pelvic Organ Prolapse Physiotherapy (POPPY) Trial • Antiretrovirals, Sexual Transmission Risk and Attitudes (ASTRA) Questionnaire Study • ARIA • Avon Longitudinal Study of Parents and Children (ALSPAC) • Birth notification records (previously NHS Number for Babies [NN4B]) • Birth Records (Hospital) • Bristol Public Health Laboratory (PHLB) • Born in Bradford (BiB) data • Breast Conservation Trial • Breast Screening Select (BS Select) • British Atmospheric Data Centre • Cafcass Cymru Administrative Data • Cambridge Hospital at Home (HAH) Referrals • Cancer Network Information System Cymru (Canisc) • Cancer Outcomes and Services Dataset • Cancer data (e.g. Wales Cancer Network, Cancer Research UK)) • Cancer Registry (England: Local or regional) • Cancer Registry (National) • Census data • Centre for Environmental Data Analysis data • Centre for Maternal and Child Enquiries (CMACE) • Chemotherapy Electronic Prescribing System (CEPAS) • Child Health Schools Programme-System (CHSP-S) • Child Health Surveillance Programme Pre-School system (CHSP-PS) • Child Health System (CHS) • Scottish Care Information-Diabetes Collaboration (SCIDC) database • Clinical Practice Research Datalink (CPRD) (previously GPRD)) • Clinical Record Interactive (CRIS) system - records of mental health service use in South-East London • Child Health Surveillance System • Collaborative HIV Paediatric Study (CHIPS) cohort • Community Health Index (Scottish)

Type of Data Linkage (tick all that apply)	• Linking levels of health care (e.g., primary care with secondary care) • Linking people (e.g., mother with child/baby) • Linking variables with outcomes, predictors, or other variables (e.g., prescriptions with changes in health outcomes) • Linking registries (e.g., national registry with a local registry) • Linking different methodologies (e.g., cohort studies with routine data) • Linking health data with ONS data • Linking health data with social care data • Linking health data with education data • Linking health data with police, crime, justice data • Linking health data with registry(s) or audit(s) • Linking health data with prescribing data • Linking health data with socio-demographic or neighborhood data
What are data linked on? (tick all that apply)	• Not reported/Unclear • Unique Identifier (e.g. NHS number, Community Health Index) • Name • Age • Date of Birth • Date of death • Soundex code • Hospital Admissions • Operation date • Postcode • Sex/gender • Birthweight • Month and year of conception • Primary care practice • Study ID Code • Post-natal Notes • Initials • Year of pregnancy • Pregnancy identifiers • Clinical contact • Year of HIV positive Test • Birth Data (e.g. registrations/notifications) • Region of diagnosis
Linking Methodology	• Not reported/Unclear • Not applicable • Deterministic • Probabilistic
Percentage of Data Linked	• Not reported/Unclear • Not applicable • Less than 50.99% • 51-60.99% • 61-70.99% • 71-80.99% • 81-90.99% • 91-100%
Availability of linked dataset	• Not reported/Unclear • Yes: Publicly Available • No: Not publicly Available (e.g. approval / access requests need to be made)

Has missing data been reported?	• Yes. If yes, have actions been taken to address the missing data? - Not applicable - Yes - No • No
Any Patient and Public Involvement (PPI)?	• Not reported/Unclear • Yes • No
Was ethical approval obtained?	• Not reported/Unclear • Yes • No- - Not required or applicable/Exempt from approval
PHE Indicators	• None • 1. Perinatal mental health • 2. Domestic abuse-related incidents and crimes • 3. Violent crimes – sexual offenses • 4. Women of reproductive age presenting with and having intrauterine system insertion primarily for heavy menstrual bleeding • 5. Proportion of women who have self-reported an impact of reproductive health issues • 6. Prevalence of women over 44 years old referred for menopause assessment • 7. Contraception prevalence rate • 8. Women receiving emergency contraception • 9. Average wait time to first available long-acting reversible contraception (LARC) fitting appointment • 10. Removal of babies at birth into care • 11. Under age conception (i. under 16; ii. under 18) • 12. London Measure of Unplanned Pregnancy (LMUP) • 13. Abortions under 10 weeks that are medical • 14. Total abortion rate per 1,000 • 15. Under 18 conceptions leading to abortions • 16. Low birth weight of term babies • 17. Neonatal mortality and stillbirth rate • 18. Prevalence of infertility in women • 19. Live birth from assisted conception • 20. Females attending cervical screening within target period • 21. Human papillomavirus (HPV) vaccination coverage for 2 doses (females 13 to 14 years old) • 22. Total overall (LA and NHS) spend on sexual health provision per capita • 23. Number of people who have received high quality sex and relationships education in their lifetime

List of identified studies

Abdel-Fattah Mohamed, Familusi Akinbowale and Fielding Shona ; Ford John ; Bhattacharya Sohinee ;. (2011). Primary and repeat surgical treatment for female pelvic organ prolapse and incontinence in parous women in the UK: a register linkage study.. *BMJ open*, 1(2), pp.e000206.

Abdul Sultan, Alyshah and Tata Laila J; Grainge Matthew J; West Joe ;. (2013). The incidence of first venous thromboembolism in and around pregnancy using linked primary and secondary care data: a population based cohort study from England and comparative meta-analysis.. *PloS one*, 8(7), pp.e70310.

Abdul Sultan, Alyshah and Tata Laila J; Fleming Kate M; Crooks Colin J; Ludvigsson Jonas F; Dhalwani Nafeesa N; Ban Lu ; West Joe ;. (2014). Pregnancy complications and adverse birth outcomes among women with celiac disease: a population-based study from England.. *The American journal of gastroenterology*, 109(10), pp.1653-61.

Abdul Sultan, Alyshah and West Joe ; Ban Lu ; Humes David ; Tata Laila J; Fleming Kate M; Nelson-Piercy Catherine ; Card Timothy ;. (2016). Adverse Pregnancy Outcomes Among Women with Inflammatory Bowel Disease: A Population-Based Study from England.. *Inflammatory bowel diseases*, 22(7), pp.1621-30.

Achana F A and Fleming K M; Tata L J; Sultan A A; Petrou S. (2018). Peripartum hysterectomy: an economic analysis of direct healthcare costs using routinely collected data.. *Comment in: BJOG. 2018 Jun and 125(7):905-906 PMID: 29349859* [<https://www.ncbi.nlm.nih.gov/pubmed/29349859>], 125(7), pp.874-883.

Ades A E, Parker S and Walker J ; Cubitt W D; Jones R ;. (). HCV prevalence in pregnant women in the UK.. *Epidemiology & Infection*, 125(2), pp.399-405.

Ahmeidat Annes, Bhattacharya Sohinee and Luben Robert N; Khaw Kay-Tee ; Myint Phyo K;. (2021). Long-term effects of gestational diabetes on bone mineral density and fracture risk: Analysis of the Norfolk cohort of the European Prospective Investigation into Cancer (EPIC-Norfolk) population-based study.. *Maturitas*, 144, pp.68-73.

Aicken Catherine R. H, Wayal Sonali and Blomquist Paula B; Fabiane Stella M; Gerressu Makeda ; Hughes Gwenda ; Mercer Catherine H;. (2019). Pathways to, and use of, sexual healthcare among Black Caribbean sexual health clinic attendees in England: evidence from cross-sectional bio-behavioural surveys.. *BMC Health Services Research*, 19(1), pp.N.PAG-N.PAG.
